TheMacU

TMU All Access Group order opportunity for Mac User Groups!

Greetings from TheMacU.com!
I'm Drew Swanson, creator of TheMacU. I create video tutorials on a wide range of Mac & iOS topics. Recently I have started offering these tutorials as an All Access Subscription that allows users to pay one low price to be able to view all the tutorials for a period of one year. I'm extending an even better offer to Mac/Apple User Groups with a group order option. Your members can **save up to 50% off** the normal price of an All Access subscription.
