**MORE!**  
**About Our featured topic—**

**Meeting:**  
**Tuesday, November 8th**  
**7:00 pm**

**Arnold Firehouse**  
**EPFD Station 1 on Blagen Road in Arnold**

The street address is 1037 Blagen Road in Arnold. It is between the Post Office and the Library on Blagen. To reach it you come up (or down) Hwy #4 into Arnold. When you reach the Chevron Station on the left hand side (coming up), you make a gentle left turn onto Blagen Road, which will take you past Ace Hardware and the Post Office. The Station is on the left hand side and is the big building full of Fire Engines if they are not out on a call. To park, drive to the right hand side of the building and into the parking area in the back. If all the spaces are full in the

black top area use the gravel area to the right after you pass by the building. The building we use is in the back, with an entrance with a door--it's the classroom.

**From Bob Reagan:**

## **ICLOUD AND OTHER APPLE INNOVATIONS TO BE EXPLORED AT THIS MEETING**

Unmasking the mysteries of iCloud and other innovations from Apple will be the major focus of our meeting. Brian Thomas, Technology Specialist and Trainer for the Calaveras County Office of Education and an expert on all things Mac, will be making the presentation and leading our discussion. His topics will include the introduction of the IOS5 free software update and a summary of the new features in the iPhone 4s. As always, questions on these and any other computer subjects will be encouraged.

### **December**

The December gathering will be our traditional holiday party! Get to know your fellow Mac user; get to gobble goodies earlier in the month than most holiday parties! Get to ask our gurus the fun questions, like “How did you ever learn

about how Quicken stores its backup files?” or “Did you really choose to move to Lion?”

## **Winter program**

As before, in January, February and March we will move our meetings down to Murphys, meeting in the afternoons.

(Second Tuesday of the month, 2 pm to 4 pm). This, as before, is to support snow-free driving and relief from driving in the dark.
