### **EXPLORING YOUR NEW APPLE PRODUCT AMONG SMUG'S JANUARY TOPICS**

Anyone who was lucky enough to get a new Apple computer product for Christmas will get helpful tips on how to get the most out of its many features when the Sierra Macintosh Users Group (SMUG) holds its monthly meeting, Tuesday, January 12, from 2 to 4 p.m. in the community room of the Murphys Library, 480 Park Lane, adjacent to Murphys Park.

Because of iffy weather conditions in higher elevations, SMUG moves its meeting site from its regular Arnold location to Murphys for the months of January, February, and March.

Paul Keeton, SMUG's treasurer and a resident guru, will take the group through a tour of the latest iMac, iPad, and iPhone features. For new owners, it will be an eye opener; for others it will be a good refresher session. Keeton will also oversee a Question and Answer session on all things Apple.

SMUG meetings are open to everyone and there is no charge to attend. The organization exists to keep Apple users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Mac products possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. Annual dues are \$15. For more information visit the SMUG website at [www.SierraMacintoshUsersGroup.org](http://www.SierraMacintoshUsersGroup.org) or call 795-3798 or 728-9012.
