SMUG JANUARY MEETING TO ADDRESS MEMBERS' COMPUTER QUESTIONS

For those lucky users who received a new iMac, iPad, or other Apple computer product for Christmas, or for anyone who vexed by his or her somewhat older Macs, The Sierra Macintosh Users Group (SMUG) will attempt to solve problems during the group's monthly meeting, Tuesday, January 14, beginning at 2 p.m. in the community room of the Murphys Library, 480 Park Lane, adjacent to Murphys Park.

Because of iffy weather conditions in higher altitudes, SMUG moves its regular meeting site from its regular Arnold location to Murphys for the months of January, February, and March.

Seth Summersett, a professional computer programmer, will be making the presentation and engaging members in the question and answer session. He is a graduate of Bret Harte High School who has gone on to earn a masters degree in computer science.

SMUG meetings are open to everyone and there is no charge to attend. The organization exists to keep Mac users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Macs possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. Annual dues are \$15. For more information visit the SMUG website at www.SierraMacintoshUsersGroup.org or call 795-3798 or 728-9012.
