iTUNES WILL BE MAIN TOPIC AT SMUG'S MARCH MEETING

All the features offered by Apple's popular iTunes application will be the main topic at the next meeting of the Sierra Macintosh Users Group (SMUG) to be held, Tuesday, March 10, from 2 to 4 p.m. in the community room of the Murphys Library, 480 Park Lane, adjacent to Murphys Park.

The application has many functions. It is a media player, media library, and online radio broadcaster used to play, download, and organize digital audio and video on personal computers and other electronic devices. Through the iTunes Store, users can purchase and download music, music videos, television shows, audiobooks, podcasts, and movies.

Paul Keaton, a computer guru and also the club's treasurer, will be making the presentation and fielding questions on this and other Apple related questions. He will also be accepting annual dues of \$15 from members.

SMUG meetings are open to everyone and there is no charge to attend. The organization exists to keep Apple users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Mac products possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. For more information visit the SMUG website at www.SierraMacintoshUsersGroup.org or call 795-3798 or 728-9012.
