iPAD'S POTENTIAL WILL BE MAIN TOPIC WHEN SMUG MOVES BACK TO ARNOLD

Brian Thomas, Director of Instructional Technology for the Tuolumne County Superintendent of Schools, will show some of the newest ways users can engage their iPads when the Sierra Macintosh Users Group (SMUG) moves back to its warm-weather meeting place in Arnold for its Tuesday, April 14 meeting that will begin at 7 p.m. in the assembly room of the Ebbetts Pass Fire District, 1037 Blagen Rd., just off Highway 4.

Thomas will demonstrate apps that can be used to design a 3-D model, show how to program, or even control a robot, and unlock many other revolutionary ways to use the iPad.

SMUG members who have been to a Thomas presentation know he will travel far from the basic topic to provide a variety of tips and educational and entertaining information.

As always, questions about any Apple products and applications will be welcomed.

SMUG meets the second Tuesday of each month. Meetings are open to everyone and there is no charge to attend. The meetings are held in Arnold except for the winter months when they move to the Murphys Library. The organization exists to keep Mac users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Macs possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. For more information visit the SMUG website at www.SierraMacintoshUsersGroup.org or call 795-3798 or 728-9012.
