### **ALL THINGS GOOGLE EXPLORED AT MAY 12 SMUG MEETING**

The exciting world of Google, the computer environment invented in 1998 by Larry Page and Sergey Brin, will be explored when the Sierra Macintosh Users Group (SMUG) has its monthly meeting Tuesday, May 12, beginning at 7 p.m. in the assembly room of the Ebbetts Pass Fire District, 1037 Blagen Rd., just off Highway 4.

Brian Thomas, Director of Instructional Technology for the Tuolumne County Superintendent of Schools, will lead the tour. Gmail, Google Docs, Google Chrome, Google World, Google News, and Google Goggles will be some of the points of disembarkation. As with all Thomas presentations, there will be some surprises and side roads along the journey.

Everyone is encouraged to bring his or her Mac related questions to be addressed.

SMUG meets the second Tuesday of each month. Meetings are open to everyone and there is no charge to attend. The organization exists to keep Mac users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Macs possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. Annual dues are \$15. For more information visit the SMUG website at [www.SierraMacintoshUsersGroup.org](http://www.SierraMacintoshUsersGroup.org) or call 795-3798 or 728-9012.
