### EXPLORING iCloud IS JUNE 14 SMUG TOPIC

Taking the mystery out of iCloud, the Apple developed remote storage service, will be the main topic when the Sierra Macintosh Users Group (SMUG) has its monthly meeting Tuesday, June 14 beginning at 7 p.m. in the assembly room of the Ebbetts Pass Fire District, 1037 Blagen Rd., just off Highway 4.

Seth Summersett, a professional computer programmer and one of SMUG's major presenters, will take members on an extensive exploration of the system that provides its users with means to store data such as documents, photos, and music on remote [servers](#) for download to [iOS](#), and [Macintosh](#) devices. Among its many features, it is able to share and send data to other users, and to manage Apple devices if lost or stolen.

An important aspect of SMUG meetings is the opportunity to ask questions about any phase of the Apple computer experience.

SMUG meets the second Tuesday of each month. Meetings are open to everyone and there is no charge to attend. The organization exists to keep Mac users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Macs possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. Annual dues are \$15. For more information visit the SMUG website at [www.SierraMacintoshUsersGroup.org](http://www.SierraMacintoshUsersGroup.org) or call 795-3798 or 728-9012.
