GETTING THE MOST OUT OF APPLE PRODUCTS EXPLORED AT JULY 14 SMUG MEETING

Seth Summersett, a professional computer programmer, will take members on an extensive exploration of the world of Apple when the Sierra Macintosh Users Group has its monthly meeting Tuesday, July 14 beginning at 7 p.m. in the assembly room of the Ebbetts Pass Fire District, 1037 Blagen Rd., just off Highway 4.

A graduate of Bret Harte High School, who went on to earn a masters degree in computer science, Summersett will begin the presentation with a review of basic standard features of the iMac family, journey through the latest Apple innovations, and then take a look into what may be coming in the future.

An important aspect of SMUG meetings is the opportunity to ask questions about any phase of the Apple computer experience.

SMUG meets the second Tuesday of each month. Meetings are open to everyone and there is no charge to attend. The organization exists to keep Mac users abreast of the latest developments and to address the nagging questions that arise from time to time. Its goal is to take the mystery out of computers and to enable members to take advantage of all the features their Macs possess.

SMUG was founded in 1995 and is a non-profit organization run completely by volunteers. Annual dues are \$15. For more information visit the SMUG website at www.SierraMacintoshUsersGroup.org or call 795-3798 or 728-9012.
